California Production

Production By County

Size and Location of Leafy Greens Industry - 2004

Source: Economic Research Service - USDA

- Domestic Supply
 - Head Lettuce 189,200 Acres
 - Romaine 81,200
 - Leaf Lettuce 54,000
 - Spinach 39,600
- Lettuce Imports
 - Canada 750*
 - Mexico 2200*

*Acreage extrapolated from reported volumes

Per Capita Usage

	POUNDS		
	<u>1985</u>	<u>1995</u>	<u>2005</u>
Head Lettuce	23.7	22.2	22.1
Romaine	0.7	2.8	8.3
Leaf Lettuce	2.5	3.1	4.0
Spinach	0.7	0.7	2.3

Spinach per capita consumption is 12% greater for women than men

Strongest spinach consumers are ages 40 - 59

California Production

(primarily grazing)				

TRENDS/FOOD FOR THOUGHT

- Vast majority of leafy greens production occurs in CA and AZ
- Per capita consumption of head lettuce has been flat
- Per capita consumption of other leafy greens has increased exponentially in past 20 years
- Monterey County is the largest producer in the country
- Leafy greens production and cattle have coexisted in all production areas for many years
- Industry growth over the last 15 years has been concentrated in spinach, spring mix, and leafy lettuces
- Organic acreage has increased similarly.
